By Spike and Updyke.

That with the arrival of the machine gun company the drug stores should do a hand-to-hand business selling sedative remedies.

That Sergeant Spike, Camp Hospital, has been placed under arrest of quarters, that is, until 2 p. m. daily, for an indefinite period. "Oh well," that's the way it goes. These sergeants seem to get the best of everything. But we guess that Columbus won't run away while he is in camp. We hope not anyway.

That all of the soldiers, merchants and friends of Rev. Edward Franklin, private, Camp Hospital, who were unfortunate enough to permit him to show them that in their judgment line of his, can make a better rush on him, now that he has just received a \$100 back pay check from the finance department.

That all of those birds that have been firing on the machine gun targets will have to find a new target range unless they have made an awful good score. They will have to at least have made a better score than the machine gunner made before he left for El Paso in order to hold the target. But we have over one thousand companies who are said to be very good shots.

That in a certain company, a group of men were standing in the company street engaged in a long argument. A sergeant came up and said "All right, men, let's put a stop to these tests." All moved except a certain corporal, who turned to the sergeant and remarked, "Are you speaking to me or to some of those enlisted men?" Some of these corporals should see their stripes on their shoulders.

That during the recent capture of Juarez by United States troops, as we turned down a certain street, the lieutenant in charge of the street patrol said to one of his sergeants, "I think I saw some Mexicans go into this bar. Get them out, sergeant." The sergeant turned and said to the corporal, "Get them out, corporal." The corporal turned and said to a lone buck private, "Get them out, soldier." The night was so dark that one could hardly see his own hands. The private walked up to the door and scrutinized the dark interior of the bar for a moment and turned thoughtfully to the corporal and said, "There is not a soul in there corporal, I can see all through that bar."

That beginning today Spike will be in business by himself—because Holly has dissolved partnership with Spike.
